

WGL Renewal Information

Steps to take when you receive your renewal notice for 100% wind from WGL

1. Call 1-844-4ASKWGL (1-844-427-5945) to discuss your **renewal** rate. Tell them that you are part of Groundswell's group purchase and you would like the group price, found here: <https://one.wglenergy.com/cmp/groundswell/>
2. When they respond:
 - **If you like the new rate**, renew for a new 1 or 2-year contract!
 - **If you do NOT like the new rate**, cancel your contract. WGL will continue to service your home until the end of your contract. Once your contract ends, you will be able to choose a new supplier to service your home with 100% wind power. In the meantime, Groundswell will be working very hard to get you the best rate on wind power as possible.

If you do not take any action (accept or reject the renewal rate) **at least 25 days prior to the end of your term**, WGL Energy will automatically renew your contract at the price that they quoted you.

If you have any questions or issues, please contact Groundswell at nadya.dutchin@groundswell.org or 443-598-6773 or energy@groundswell.org / 202-753-9672
